

New Phone it in System

This is just a quick reminder of the new procedures for reporting scores to WYSL after each game. This Spring each coach or manager will be responsible for calling the results of their game. Please follow the simple directions below:

1. Dial the toll free number 1-866-334-6294. Please note, if you are using an international phone number you must dial 571-370-5995.
2. When asked say or enter our code number **2826** and the code of the game is the game number.
3. You will then be told the division, teams playing and field location – if this is the correct game confirm by responding yes.
4. You can do more games in the same phone call, just say goodbye when done.

Remember that you cannot have two games with the same number (within the same division or across divisions.) to use the phone it in system. You should only have one phone number and pin to each team reporting. Please make sure you delegate this responsibility to one person on your team.

If there are any problems with the score or issue with your game, please report the problem to Rich Savage at coachrichsavage@gmail.com
